NACCT is an excellent forum for the presentation of original research or novel case series/reports in the field of toxicology.

Thank you for submitting your abstract for the NACCT 2020 conference! If you are a student or trainee and would like to apply for a travel award to use for this conference, please click the link below. **Travel Award Application**

**Abstract Submission Instructions**

1. Only unpublished data not previously presented at other national or international meetings may be submitted. Abstracts presented at local or regional meetings may be submitted.
2. You will be allowed to present an abstract that is accepted and published electronically between the dates of the NACCT abstract submission deadline (5/20) and the start of NACCT 2020 (9/10). You cannot submit an abstract to NACCT that has already been accepted as a peer-reviewed manuscript for publication before the NACCT abstract submission deadline of May 20th.
3. The website is accepting submissions from now until midnight EDT on May 20, 2020. Ensure a smooth submission process by not waiting until the last minute. Notification emails will be sent around June 12, 2020.
4. Abstracts must include the following sub-categories:
   a. Studies: Title; background or objectives; methods; results; conclusions
   b. Case series/reports: Title; background; case reports; case discussion; conclusions. Do not include references in your submission.
5. The abstract should be written in complete sentences using grammatically correct English. Spell out all abbreviations on first usage.
6. Abstracts are limited to 500 words. Only one institution or affiliation will be allowed per author. Tables and graphs are not included in the 500 word count.
7. 3 small tables and/or graphs may be accepted using the tool provided by the website. Illustrations and videos cannot be accommodated.
8. All abstracts must be blinded. Authors, including, for example, names of poison centers, should not be identified in any way on the page containing the abstract. Author names, contact information and affiliations will not be included in the material sent to reviewers.
9. Abstracts will be reviewed for oral or poster presentations. Sixteen oral presentations (“platforms”) will be selected and will be delivered over 10 minutes followed by a 5-minute discussion. Additionally, NACCT 2020 will feature new types of educational activities, Lightning Oral and Lightning Case Sessions. Approximately 12 research abstracts and 5 cases-report abstracts will be selected for these activities. Print posters will generally be grouped by topic and presented during one of 3 sessions. If you would prefer not to be considered for an oral presentation (Platform or Lightning) and only want to present in print poster form, please indicate this in the appropriate section of the submission program.
10. Research projects that were performed by a fellow in training will be considered for a separate oral abstract session. Please indicate on the form if your submission is the result of a project that you conducted during your fellowship.
11. All abstracts that are accepted will be published as received. No copy editing will be performed.
12. Please enter authors names and affiliations exactly as you wish them to appear in the abstract’s publication.
13. All presenters of accepted abstracts must register for the NACCT 2020 conference. For more information on NACCT 2020, go to [www.clintox.org](http://www.clintox.org).

We look forward to your submissions!
